

Project Management Software Release Notes

DISCLAIMER

This software patch has not undergone extensive formal testing at this time. The patch has undergone sufficient testing to prove that it resolves the issue detailed below. SCIEX assumes no liability or responsibility for any loss howsoever caused in connection with using this software.

New in Version 1.3.24

Note: The numbers in parentheses are reference numbers for each issue or feature in the SCIEX internal tracking system.

This section describes the corrected issues in the Project Management software and the BioPhase 8800 front panel.

This release corrects the following issues:

- Data transfer from the BioPhase 8800 system to the domain isolator is done differently. [BRKSW-2722]
- A new user is sometimes added to the wrong project when the projects have different paths. [BRKSW-2755]
- A new sequence file can take several hours to be shown on the BioPhase 8800 front panel. [BRKSW-3055]

Installation

A SCIEX Field Service Employee (FSE) must install the Project Management software and update the front panel.

The Project Management software version 1.3.24 requires front panel version 1.3.24. If the versions are different, then one or more of the following issues might occur:

- Users cannot log on to the BioPhase 8800 system front panel.
- Users can log on, but the project folders are not shown on the Projects pane on the front panel.
